THE ARRIVAL OF

MR. SOLOMONS IN LOUISVILLE

WHO WILL RETURN TO EUROPE on the 24th of May next. By the solicitations of many citizens of Louisville, to pay them another visit previous to his departure for Europe, he has complied with their wishes. Therefore an early application is necessary, as he will not remain here one day after the above date.

NEW DISCOVERY FOR THE EYES!!

Spectacles, &c., ground to the exact principle of spherical accuracy, by G. SOLOMONS, the celebrated Optician, from the improved Spectacle Manufactory and London Optical Establishment, No. 105 Old Bond street, London—established more than a century ago.

G. SOLOMONS, the sole inventor of the Improved Spectacles, and various Improved Glasses, is now on a professional tour to this place, and may be consulted at his office,

NO. 74 FOURTH STREET,

Over RAYMOND & PATTEN'S Medical Depot,

LOUISVILLE, KY.

Such is the superiority of these Glasses, that persons having inflamed or weak eyes may instantly be relieved by using them, and they possess the property of preserving the precious organ of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment for any length of time, either by day or candlelight.

He will give references to people in the United States who have found the greatest benefit and comfort in the use of his newly-invented and improved Spectacles.

NEW DISCOVERY FOR DEAFNESS!!

The SOUND CONCENTRATOR is an extraordinary, powerful, newly-invented, small instrument, for the cure of extreme cases of Deafness, entirely different in make and construction from all others, and surpassing anything that has been or probably ever can be produced. The unpleasant sensation of ringing noises in the ear is entirely removed, and the Concentrator affords to individuals afflicted with this dreadful malady all the assistance that can possibly be desired.

I hereby certify that the Eye Glasses shown me by G. Solomons are superior in finish and less obstructing to my perfect vision than any I have ever examined, and cheerfully recommend them to all in need of Glasses.

R. H. JOHNSON, M. D., Eye Infirmary,
Southwest corner Fourth and Sycamore streets.
Cincinnati, February 16, 1856.

Mr. Solomons has furnished me with my first pair of Glasses. They appear to answer the purpose very well, and seem to be constructed on the principles used. The testimony of other medical gentlemen, of experience in the matter, is very conclusive in favor of these articles. J. R. FLINT, Professor of Surgery.

A CARD TO THE PUBLIC.

I AM NOW, AND HAVE BEEN FOR the past four years, by appointment of the Council, an Inspector and Weigher of Coal for the city of Louisville. Occupying the relation I do to the public, I feel it incumbent upon me to say before it a few facts which I esteem to be of the first importance.

The object of creating the office of Inspector and Weigher of Coal was to enable every person who buys coal to know *how much he buys.* The State law makes it optional with the buyer and seller whether the coal bought and sold shall be inspected or weighed. Some dealers have accordingly erected private scales, and weigh, or pretend to weigh, the coal they sell themselves; while one purchaser out of ten does not know that it has not been weighed by the regular appointed city weighers. Still other dealers openly propose to sell coal by the hundred bushels, *not weighed*, for one dollar less than if it be weighed. It only costs sixteen cents to weigh one hundred bushels of coal. How, then, can any dealer afford to sell it for a dollar less when *not weighed* than if weighed? This question is of easy solution. The dealer who sells for a dollar less than one hundred bushels, because of its not being weighed, my word for it, makes up his loss, and more too, in deficiency of weight. I have tried this matter to my entire satisfaction. I have weighed some of the coal sold by the load without being weighed, and have invariably found it to fall far short of the amount for which it purported to be sold.

Coal is almost a necessary of life, and should be fairly and honestly meted out according to contract. Persons purchasing coal should be particular to see that their tickets are signed by one of the city Coal Inspectors, and then, and *only then*, will they be sure to get the full measure of what they buy.

R. A. COLLINS,
ap29 dlm* City Coal Inspector and Measurer.

OVERLAND MAIL ROUTE TO CALIFORNIA.

POST OFFICE DEPARTMENT, April 20, 1857.

AN ACT OF CONGRESS, APPROved 3d March, 1857, making appropriations for the service of the Post Office Department for the fiscal year ending 30th June, 1858, provides:

"Sec. 10. That the Postmaster General be, and he is hereby, authorized to contract for the conveyance of the entire letter mail from such point on the Mississippi river as the contractors may select to San Francisco, in the State of California, for six years, at a cost not exceeding three hundred thousand dollars per annum for semi-monthly, four hundred and fifty thousand dollars for semi-weekly, or six hundred thousand dollars for semi-weekly service, to be performed semi-monthly, weekly, or semi-weekly, at the option of the Postmaster General.

"Sec. 11. That the contract shall require the service to be performed with good four-horse coaches or spring wagons, suitable for the conveyance of passengers as well as the safety and security of the mails.

"Sec. 12. That the contractor shall have the right of pre-emption to three hundred and twenty acres of any land not then disposed of or reserved at each point necessary for a station, not to be nearer than ten miles from each other; and provided that no mineral land shall be thus pre-empted.

"Sec. 13. That the said service shall be performed within twenty-five days for each trip; and that, before entering into such contract, the Postmaster General shall be satisfied of the ability and disposition of the parties, *bona fide* and in good faith, to perform the said contract, and shall require good and sufficient security for the performance of the same, the service to commence within twelve months after the signing of the contract."

Proposals will accordingly be received at the Contract Office of the Post Office Department, until 3 P. M. of the 1st day of June, 1857, for conveying mails under the provisions of the above act.

Besides the starting point on the Mississippi river, bidders will name the intermediate points proposed to be embraced in the route and otherwise designate its course as nearly as practicable.

Separate proposals are invited for *semi-monthly, weekly,* and *semi-weekly* trips each way.

The decision upon the proposals offered will be made after the Postmaster General shall be satisfied of the ability and disposition of the parties in good faith to perform the contract.

A guarantee is to be executed, with good and sufficient sureties, that the contract shall be executed with like good security, whenever the contractor or contractors shall be required to do so by the Postmaster General, and the service must commence within twelve months after the date of such contract.

I, ——, of ——— county, of ———, State of ——, propose to convey the entire letter mail, for the term of six years, from the date specified in the order for commencing service, from ——, on the Mississippi river, by ——, to San Francisco, California, agreeably to the advertisement of the Postmaster General of the 20th April, 1857, in good four-horse coaches or spring wagons, suitable for the conveyance of passengers, as well as the safety and security of the mails, *semi-monthly*, each way, for the annual sum of —— dollars; *weekly*, each way, for the annual sum of —— dollars; *semi-weekly*, each way, for the annual sum of —— dollars.

Dated. ———

Form of Guarantee.

The undersigned, residents of ——, State of ——, undertake that, if the foregoing bid for carrying the mail on the route from ——, on the Mississippi river, to San Francisco, California, be accepted by the Postmaster General, the bidder shall, when required by the Postmaster General, enter into the necessary obligation to perform the service proposed, with good and sufficient sureties.

This we do, understanding distinctly the obligation and liabilities thereby assumed, and under the 25th section of the act of Congress of July 2, 1836.

INSTRUCTIONS.

Containing conditions to be incorporated in the contracts to the extent the Department may deem proper.

1. No additional allowance will be made for each or each of such omissions not satisfactorily explained, three times the pay of the trip may be deducted. Deductions will also be ordered for a grade of performance inferior to that specified in the contract. For repeated delinquencies of the kind herein specified enlarged penalties, proportioned to the nature thereof and the importance of the mail, may be made.

2. For leaving behind or throwing off the mails, or any portion of them, for the admission of passengers, or for being concerned in setting up or running an express conveying intelligence in advance of the mail, a quarter's pay may be deducted.

3. Fines may be imposed, unless the delinquency be promptly and satisfactorily explained by certificates of postmasters, or the affidavits of other credible persons, for failing to arrive in contract time; for neglecting to take the mail from or deliver it into a post-office; for suffering it (owing either to the unfitness of the place or manner of carrying it) to be wet, injured, destroyed, robbed, or lost; and for refusing, after demand, to convey the mail as frequently as the contractor runs or is concerned in running a coach on the route.

4. The Postmaster General may annul the contract for repeated failures to run regularly to contract; for violating the post-office laws, or disobeying the instructions of the Department; for refusing to discharge a carrier when required by the Department to do so; for assigning the contract without the assent of the Postmaster General; for running an express as aforesaid; or for transporting persons or packages conveying mailable matter out of the mail.

5. A bid received after the last day and hour named, or without the guarantee required by law, cannot be considered in competition with a regular proposal reasonable in amount.

6. The route, the service, the yearly pay, the name and residence of the bidder (that is, his usual post-office address), and those of each member of a firm, where a company offers, should be distinctly stated.

7. Altered bids should not be submitted; nor should bids once submitted be withdrawn.

8. Each bid must be guaranteed by two or more responsible persons satisfactory to the Postmaster General. General guarantees cannot be admitted. The bid and guarantee should be *signed* plainly with the full name of each person.

9. The Department reserves the right to reject any bids which may be deemed extravagant, and also the bids of failing contractors and bidders.

10. The bid should be sealed; superscribed "Mail proposals for overland route to California," addressed "Second Assistant Postmaster General," Contract Office.

11. A modification of a bid in any of its essential terms is tantamount to a new bid, and cannot be received, so as to interfere with a regular competition, after the last hour set for receiving bids.

12. Postmasters are to be careful not to certify the sufficiency of guarantors or sureties without knowing that they are persons of sufficient responsibility; and all bidders, guarantors, and sureties, are distinctly notified that, on a failure to enter into or perform the contracts for the service proposed for in the accepted bids, their legal liabilities will be enforced against them.

13. Present contractors, and persons known at the Department must, equally with others, procure guarantors and certificates of their sufficiency substantially in the forms above prescribed. The certificates of sufficiency must be signed by a postmaster, or by a judge of a court of record.

The attention of bidders, guarantors, sureties, &c., is directed to the following laws, viz:

Sec. 2, Act of March 3, 1825, requiring contractors, carriers, &c., to be sworn.

Sec. 44, Act of March 3, 1825, in relation to failure to enter into contract.

Sec. 27, Act of July 2, 1836, liabilities of guarantors.

Sec. 28, Act of July 2, 1836, authorizing bids of failing contractors to be rejected.

Sec. 28, An act of July 2, 1836, in relation to combinations amongst bidders.

Act of April 21, 1848, provides that no member of Congress can be contractor.

Sec. 42, An act of March 3, 1825, provides that no postmaster, assistant postmaster, or clerk in a post-office shall be a contractor.

Sec. 7, Act of March 3, 1825, provides that no other than a free white male person shall be employed in carrying the mail.

The Postmaster General will reserve to himself the right of annulling any contract made under the above act, whenever he shall discover that the same, or any part of it, is offered for sale in the market, for the purpose of speculation; and he will, in no case, sanction a transfer of the same, in whole or in part, to any assignee or sub-contractor less qualified in his opinion than the original contractor to carry the same into successful operation. ☞ If the cause of dissension between its opponents should be removed, Democracy would be overwhelmed.—*Journal.*

Ah! that's the secret; the cause of dissension must be removed. Will the brethren inform us how they propose to remove it? The Black Republicans will never surrender; and what's do be done? If the mountain will not go to Mahomet, Mahomet must go to it. The people of Kentucky understand the suggestion. Insist on nothing that the Abolitionists oppose, and the cause of dissension among the opponents of Democracy will be removed. That is the proposition. Let the shriekers have their way; don't irritate them. Insist only upon Americanism. Let the rights of the Southern States go for the sake of spoils.

Now, we can inform the brethren that the Democracy intend to insist upon these rights, and they may shriek and croak to their heart's content. The Democrats acquired Louisiana, and the Federalists croaked. They admitted Missouri into the Union amidst a terrible agitation. They annexed Texas in a tempest; passed the compromise measures of 1850, and repealed the Missouri Compromise, in spite of shrieking and croaking. They intend to do hereafter, as they have done heretofore, and defy Abolitionists. When a measure is necessary and constitutional, they will not inquire of Seward, Greely, & Co. whether they may adoptit. They have nothing for these traitors to the Constitution and the Union but defiance. The Democracy will not shape their policy to please them, in order to remove causes of dissension. Let them rail, if they love to rail, and think they can make anything at it. If the Know-Nothings of Kentucky wish to make a bargain with these traitors to remove a cause of dissension, we know they must sacrifice the South to do it; and the people will see them at the polls when they attempt it. Keep an eye on this removal of the cause of dissension between the Know-Nothings and Black Republicans. The unions in the free States everywhere, and the advice to the faithful to vote for Morton, are significant. "Coming events cast their shadows before."

☞ It is well understood by intelligent people, that the Democratic party is the only national party in the country. The Black Republicans don't pretend to any strength in the South. They don't expect any, and don't disguise their purpose of gaining power by a sectional vote. The Know-Nothings have no party in the free States. They have not appeared in any State election; and they appeared in the Presidential election only to show their weakness. It is, consequently, a sectional party. Sectional in its location; hopeless of help in a free State except by selling out the interests of its own section. But we can point to the Democratic party, triumphant in every Southern State but one; with a majority in four of the free States, and a powerful, unyielding, and growing minority in all of them.

This being the case, where shall national, conservative men look for political associates, who will staud by the Constitution and the Uuion; who have both the will and the power to conduct this government in its glorious career? The factions had a majority in the last Congress, which they obtained by defeating the Democratic party with their everlasting slavery question; but who desires to see such another Congress? Will Kentucky help to make up such another disgraceful assemblage? What does any candid man, who seriously thinks of the good of his country, expect to gain by sending Know-Nothings to Congress? Can any sensible man tell?

☞ We intended to notice some time ago the Sixth Annual Report of the President and Directors of the Jeffersonville Railroad Company, but our copy was mislaid. The report gives a flattering account of improvement in the affairs of the road:

Cost of the road	$1,558,712 16
Shelbyville Branch road	278,015 75
	$1,836,728 91
Gross receipts, 1856	$270,257 31
Expenses	136,027 00
Net profits	$134,800 31

This shows a profit on the entire cost of over seven and one-half per cent. The road is in good order, and its business increasing. The floating debt is reduced to $99,000—$31,000 less than last year. The earnings have of course been used to lessen this debt. The capital stock in the road is only $1,015,607 27. The rest of the cost of the road is in bonds of the company aud the floating debt. This is a very fair showing without any increase of profits; but they will no doubt increase, as they have done regularly for the last three years. The annexed table shows the gross yearly earnings:

In 1853	$147,342 38
In 1854	206,944 15
In 1855	218,258 78
In 1856	270,257 36

There is, therefore, every prospect of a still better showing annually hereafter; and nothing is wanted but wise management. Indeed, the success of the road is quite as good as its friends could reasonably expect.

☞ A business correspondent writing from Cedar Creek, Tenn., under date of April 25th, says that many who have heretofore acted with the Know-Nothing party in that section, are quitting their connection with it, and are discontinuing their Know-Nothing papers, alleging that they savor too much of the negro-worshiping pack for that Southern clime. It is well, for Sam and Sambo fuse whenever they come into competition with the old Democratic party—the party of equal rights to all under the Constitution.

☞ All that we need now as a party to insure our success in all subsequent contests in the States and in the Union, is *organization.*—*Journal.*

Organization! What has become of the rituals, oaths, signs, grips, passwords, hearts, and black crosses, signals of distress? The brethren exhausted the resources of organization, and failed. The better organized, the worse they failed. Never was a party so organized, and never did one so signally fail.

☞ We have a glowing account in the Journal of what the Americans *seem* to feel. They *seem* to feel that they are engaged in a high, and holy, and patriotic cause. They *seem* imbued with the fires that glowed in the breasts of the patriots of '76. There is a great seeming among the brethren; they unfortunately are not what they "seem." They are singularly otherwise.

☞ The American party, in many of the Northern States, have already taken an independent position, which challenges the admiration and will attract the support of all conservative men. They have repudiated all fusions.—*Journal.*

The rest of mankind would like to know where and when the American party in the Northern States has taken an independent position. In the late elections we hear nothing of it. Its vote is not reported.

☞ The Know-Nothings "seem" a great deal just now; but according to the proclamation made by the high-priests of the Washington Monument Association, they are indelibly disgraced and have become a by-word.

☞ At nearly every election since Know-Nothingism made its appearance in Kentucky Attorney-General Harlan, with very little respect for modesty or propriety, as we think, has issued through the press his opinion on the subject of naturalization, and other matters connected with elections. These opinions, of course, were all calculated and intended to favor the party interests of Know-Nothings. We never understood how he become invested with authority to promulgate his opinions as authority in such cases.

We understand that a batch of Know-Nothing expounders of the Constitution and laws, has lately sprung up in this city. At the late election of magistrates and constables, we learn that the ruffians who represented new-fangled "Americanism" at the polls, declared it unconstitutional for naturalized foreigners to vote, and they stood by with brass knuckles and bludgeons to enforce their doctrine. It is further stated, that the partisan judge decided that every foreigner must exhibit his declaration, as well as his final certificate of citizenship. This is a short way of disposing of a large class of voters.

We have not heard whether these profound views are based on private communications from General Harlan.

☞ The moral strength of the American party is greater now than it ever has been.—*Journal.*

As their numbers decrease their moral strength increases. Keeping up the ratio, when the numbers are down to zero, the moral force will be *infinite.* All interested in the moral force of the American party will therefore vote against it.

☞ They (the American party) have openly declared their hostility to Black Republicanism, and have announced that they will not permit the American question to be drowned in the sea of Abolitionism.—*Journal.*

Certainly they don't intend to be drowned in the sea of Abolitionism, they intend to float in triumph upon it.

☞ We congratulate the party (American) upon its awakening to a true appreciation of the paramount importance of making the pure question of Americauism the great issue in every political contest.—*Journal.*

VIRGINIA AFFAIRS.—The Hon. Charles James Faulkner is the candidate of the Democratic party for re-election to Congress from the Berkley District. The Hon. Wm. Lucas, formerly a member, has been announced as an independent candidate, and favors an equitable distribution of the public lands. The Whig and American Convention, which met at Winchester, on the 22d ult., declined to make a nomination, but the members pledged themselves to discard all other issues but that of distribution, and to support a candidate of any party who favored the measure.—*Journal, May 5th.*

☞ The Journal delights in showing off his *poics,* and as we have some admiration for the beautiful, we take pleasure in transferring to our columns the following from the Prairie Farmer. It is certainly all as expressive and as faithfully portrayed as anything appearing in the columns of the Louisville Journal:

Letter from Jessamine County.

NICHOLASVILLE, Ky., May 2, '57.

Messrs. EDITORS: Nothing of importance has occurred in this part of the "yeth" since my last, save the election for constables; three of the five that were elected being Democrats, and the fourth might have been chosen, had the Democrats of this District come up like men and voted for their candidate. But no, they say there is no politics involved; and, consequently, won't vote for a Democrat when they can get a Know-Nothing to vote for! Nary time will a Know-Nothing support a Democrat for constable, notwithstanding there is no politics involved—nearly half the votes cast for the Know-Nothing candidate in this district were Democrats. Shame on such fidelity to a party as these Democrats manifested towards their party—their party!! yes, their party, the subject of Know-Nothing vituperation, slander, and all the vile epithets known to the English vocabulary. But enough of this. The "Americans," after the election was over, held a subordinate drilling in the court-room, for the purpose, as I am informed, of selecting delegates to attend the pow-wow at Lexington, on the 11th inst., to nominate a candidate for Congress.

One of their knowing ones told me to-day that A. K. Marshall would get the vote of Jessamine, sure. But if there was any discord, neither Alick nor Hanson would get the nomination. It is thought by some in town that George A. Shanklin is fishing with as good bait as he can muster for the place; but he'll not get in, mark it.

We have had an abundance of rain very recently, which makes the ground very "*soft,*" and has thrown a considerable obstacle in the farmers' way, so they cannot finish casting their crops. Grass is looking fine in this blue-grass region.

Letter from Henry County.

JERICHO, HENRY COUNTY, KY.,
May 4th, 1857.

Messrs. EDITORS: I see from the Democrat and Courier that the Democracy in portions of this congressional district have taken action in regard to the contemplated convention to be held in LaGrange, and the object of this communication is to suggest to the Democracy of Henry to hold precinct meetings as soon as practicable, and appoint their delegates to said convention. The Democracy in this section are by no means willing that the district should go by default, and if other portions of the district will do as well as this precinct, it is altogether probable that we can rake down the Sampson of Know-Nothingism—at any rate we feel disposed to give them the best turn we have in the shop.

We have excellent men out for the Legislature, with that veteran Democrat, Capt John P. Smith for the Senate, and Col. Jessa for the Lower House. We feel quite sure of making large accessions to our ranks. They will, of course, be elected by large majorities.

Infanticide and Poisoning.

The arrest of a Mr. Thompson, of Randolph county, Indiana, on a charge of having murdered an infant of a Miss Reed, of which he was the reputed father, by leaving it in a hollow stump, while traveling in State of Ohio, attracted much attention some time since. The Cincinnati Commercial says that he is now in Lebanon in that State. This was, at this stage, one of the most shocking tragedies on record. Thus bad begun, and worse remained behind. The sequel to this child murder is an accumulation of horror. Miss Reed died a few days after she got home with symptoms of poison, and her corpse has recently been disinterred to make an examination. The Newcastle (Henry Co.) Courier of Friday last, gives the following account of the affair:

"On the 23d inst., Coroner McDowell was called to examine the body of Sarah Reed—who was disuterred for that purpose—at Blountsville, in this county, near the line of Randolph. The facts elicited in the investigation, as near as we can learn, are these: Miss Reed, who has become quite well known through the papers as the mother of the child found dead some time since in a field near Carlisle station, on the Dayton and Hamilton road, and with a Mr. Thompson, now in jail in Lebanon, O., awaiting his trial, were charged with the murder of said child, having been confined to her bed from illness at Mrs. Thompson's, in Randolph county, ever since the child murder was perpetrated, she was, about the 2d day of this month, attacked with a "chill;" Mrs. Thompson professed to have a medicine which would cure chills speedily, and administered a portion to Miss Reed. The evidence was pretty strong, though we believe not positive, that the medicine was taken from a bottle which had formerly been known to contain arsenic."

Very soon after the dose was swallowed, the young lady complained of intense thirst, and a burning pain in the stomach, constantly calling for water. She lingered thus in great agony, until the evening of the 4th, when she expired. Shortly after her death, vague rumors were afloat in regard to her being poisoned, but nothing sufficiently definite was known to warrant legal action, until by some means it became known that Thompson had written to his wife, saying that Miss Reed "must be put out of the way, else it would go hard with him." The suspicions of the people were confirmed when the Coroner was called. A partial examination was gone through, and the inquest was adjourned to meet again at Blountsville on the 18th of May. In the mean time, Drs. Rea and Ferris, of this place, who have now in possession the stomach of the deceased, with its contents, will make the necessary chemical examination, and report to the next meeting of the inquest.

A large number of people were collected together at the inquest, and the greatest excitement prevailed. Public sentiment seems to be very decided against Mrs. Thompson, though no arrest has yet been made.

At Indianapolis, New Albany, Jeffersonville, Evansville, and Madison, Ind., and at Lexington, Maysville, Hickman, Newport, Elizabethtown, Georgetown, and Paris, Ky., and a hundred other places, the sales have been enormous, and it is increasing in popularity every day. The retail sales in the city of Cincinnati now average five hundred bottles per day. WILL CONTINUE THE PRACtice of his profession in this city. Having thoroughly studied the old system of medicine, he also devoted several years to the study of Homeopathy under the celebrated Dr. Gram, of New York, the founder of the new system in that city. For the last twenty years he has been engaged in the Homeopathic practice in the West. He would particularly recommend this system in the treatment of diseases of children, and chronic affections of females, in both of which he has had extensive experience and marked success.

FOR SALE—SLAUGHTERING ESTABLISHMENT.—The undersigned are authorized to sell the Hog Slaughtering Establishment in the city of Madison formerly owned by Sering & Pennington, situated on a tract of land containing about 40 acres, convenient to the railroad hog landing, and also to the business portion of the city.

The improvements are substantially built and afford the very best facilities for the speedy and economical slaughtering of hogs. The Hanging House is 120 feet long by 60 wide; the Slaughter House 80 by 36; and the Lard House and Warehouse 200 by 40. An Office, Stable, and other out-buildings are conveniently situated on the premises.

The pens are all floored and sufficiently large to contain from 8,000 to 10,000 hogs.

The establishment is supplied with water from springs on the adjoining hills. The supply is ample, and the water is conducted to each department through pipes, and without the necessity or use of an engine for that purpose.

Directors for the establishment has been used exclusively for slaughtering hogs, but with little improvement in packing conveniences it can be made a large and convenient Pork-Packing and Slaughtering concern.

If not sold at private sale, it will be offered at auction on the 1st of July, for one fourth cash, and balance in one, two, and three years, with interest added.

☞ THE BALM OF ZANTHORIA, or East Indian Remedy, is the only sure cure for Diarrhea, Dysentery, Cholera, Griping Pain in the Bowels, and Children Teething. Prepared by H. S. Humphrey, Oglensburgh. None who have once used this valuable remedy will again be without it, whether they are home or traveling. In time of war, parties do not wait until the enemy is upon them, and then send for their arms and ammunition; but they have their swords girded on, their pistols in their belts, their carbines and muskets and rifles loaded and ready.

That dire and unsatisfied monster, Cholera, is the foe of all mankind; and although, like the deadly rattlesnake, he gives all a warning, yet, when his fangs are once fixed, few recover. A word to the wise is sufficient. Armed with the Zanthorea, we may feel secure.

To the Citizens of the United States.

CAUTION TO THE PUBLIC.

AFTER several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1843, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Schiedam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Schiedam Aromatic Schnapps." Schiedam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry, with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Schiedam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the liquor-mixers of New York, Boston, and Philadelphia started in pursuit with their mixed and poisonous stuff, under various names—Schiedam Gin, Schiedam Schnapps, London Club-House Gin, London Cordial Gin, &c.—and in several cases my labels have been so perfectly imitated, with only the addition of a few letters, to plead a technical avoidance of the law, and so carefully prepared, as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States, on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

Wolfe's Schiedam Aromatic Schnapps

Is made from Barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts; is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South, and Southwest, are peculiarly liable—the Schiedam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a *fac simile* of his signature on the label.

Best Hair Dye in the World!

THIS is strong language, yet BOGLE'S ELECTRIC HAIR DYE (recently improved) was proven to be so, by the judges at the late Mechanics' Fair, held in Boston (among whom was Dr. Hayes, the eminent chemist and State assayer), who awarded it the *Prize Medal and Diploma,* over the choicest Hair Dyes on exhibition from all parts of the Union. Its unparalleled superiority consists in: 1st—The ingredients are nourishing to the hair, not destructive, as others are. 2d—Does not stain or hurt the skin. 3d—Is easily applied, and dyes the hair any color required, from a delicate brown to a deep black, so natural as to appear marvelous. Manufactured, sold, and applied by WM. BOGLE (Bogle's New Bazaar), 202 Washington street, Boston.

CIRCUIT COURT — CRIMINAL TERM. — The Grand Jury reported indictments yesterday in the following cases: For murder, James McMullen, Milus West, John Sweeney, and Thos. Travis; for various felonies, N. Bensinger, Jas. Green, Charles Watson, Walter West, Major McLeary, Edward Johnson (two), H. T. Morrison, Dudley Joint, George Simpson alias Geo. Thompson, Henry C. Morrison, Celia Kahill, A. Zimmerman, John Davis, William S. Cline, Thomas Butler (two cases), and for misdemeanor against Wm. Baker.

John Watson, for assault, was released upon $500 bail to be of good behavior for one year.

An indictment against Porter Buchanan, for incendiarism, one against Jack Smith, for stealing a coat, and one against Fred Roab, were ignored.

The trial of Walker and Morehead, for the murder of Farris, at Emily Gordon's, was continued until the next term.

John W. Hargaden, for killing Joseph Medley, was put upon trial. The jury had not agreed last evening.

Joseph Hinkle, Mrs. Hinkle, and Fred. Huber, charged with causing the death of Henry Rhode, were acquitted.

A. J. Royalty, for passing broken bank bills, was tried and acquitted.

BAPTIST ANNIVERSARIES. — Two important Baptist anniversaries have been celebrated in this city the present week. The annual meeting of ministers took place on Monday. Dr. John Bryce, of Henderson, presided, and Rev. S. H. Ford, of this city, was chosen Secretary. Various interesting essays and sermons were read, and many personal experiences detailed, which gave general gratification to those who participated.

The General Association of Kentucky Baptists met at the Walnut-street Baptist Church, yesterday morning, Maj. Bartlett, of Covington, presiding, and J. M. Cooper, of Lincoln county, acting as Secretary. The representation was quite large. Rev. Andrew Broaddus read the annual report of the Board of Directors.

TOBACCO PREMIUMS.—The following is a list of premiums on tobacco, given by the Kentucky State Agricultural Society in this city yesterday, at the Pickett Tobacco Warehouse, Spratt & Harper, proprietors:

Best hhd. leaf—producer, W. Owen, of Bracken county, Ky., premium—sold to James Clark, Louisville, Ky., $19.

Best hhd. leaf shipping—producer, W. Wood, Mercer county, Ky., premium—sold to John Smidt & Co., Louisville, Ky., $20.

Best hhd. leaf manufacturing—producer, L. Vankapp, of Henderson county, premium—sold to Musselman & Son, Louisville, Ky.

Best hhd. leaf cigars—producer, J. Murry, Bracken county, Ky., premium—sold to Ward & Nash, Louisville, Ky., $30.

ANOTHER TRIAL OF THE STEAM FIRE ENGINE. The second trial of the steam fire engine, at the corner of Third and Main streets, yesterday morning, was altogether gratifying to those present. The stream of water thrown went fully twenty feet above Mr. Bustard's new buildings, which are the highest edifices on Main street. The machine seems to be everything that could be desired—indeed just the thing we have so long needed in this city.

DISMISSED.—Felix Kinneman, who was arrested, on Saturday last, for having bad money in his possession and offering to sell an Odd Fellows' apron, was examined before Judge Johnston yesterday. It was shown that he had purchased the regalia of a woman in New Albany, and it was not proven that he had attempted to utter the bogus money. He was therefore dismissed.

RAILROAD TAX COLLECTOR FOR THE EASTERN DISTRICT.—Mr. William M. Watts, who was elected Railroad Tax Collector for the Eastern District at the late municipal election, has failed to give the needful security ($20,000), and the Council has ordered a special election to fill the vacancy, which will be held in the Eastern District on the 16th inst.

☞ Charles Winters, agent of a Mrs. Fetter, seems to be a terror to the renters. He presents a pistol with his bill, and is becoming a regular attendant at our Police Court. Pat. Forbes is the last complainant, and appeared against him yesterday. Judge Johnston held Winters to bail to keep the peace.

RAISED 1 VOTES—BEWARE.—Messrs. White & Young showed us yesterday evening a one dollar bill on the Northern Bank of Kentucky raised to a twenty. The pasting is skillfully done, and would deceive any one not accustomed to handling that money.

NEW MILITARY COMPANY.—There will be a meeting of citizens at 7 o'clock this evening, at the Lafayette engine-house, to complete the organization of a new Military Company in that part of the city.

POLICE DOCKET.—At the call of the monthly docket in Police Court yesterday, John Watson was fined $72 50 for assaulting Susan Cash, and John Donohue, for keeping a tippling-house, was fined $60.

☞ The Masonic fraternity of Cynthiana will dedicate their new hall on the 2d of June next. Preparations are being made to make a grand display on the occasion.

☞ A young man was fined $10 in Police Court yesterday, for breaking the door of a notorious bawdy house up town, kept by Elvira Glover.

☞ Mr. Garner was shot and dangerously wounded in the vicinity of Warren, Mo., on Monday of last week, by a man named Swayne.

TO ADVERTISERS.—Regular yearly advertisers —to insure a prompt insertion of their favors— should hand them in by 5 o'clock, P. M.

☞ Messrs. J. B. Ehrich and James C. Shanks have been confirmed by the General Council as Assistant Chiefs of Police.

☞ Charles Winters, in Police Court yesterday, confess ed to selling liquor without license, and was fined $20.

☞ The street hands of this city have petitioned the General Council to increase their pay.

☞ The river is rising pretty rapidly at this point, with about 8 feet water in the pass on the falls.

☞ The Union Fire Company is to have a new suction and five hundred feet of new hose.

THE CITY COUNCIL. — The two boards of Council were in session last evening. The Board of Aldermen adjourned at an early hour. The Common Council was occupied until a late hour in the discussion and passage of various appropriations. Among other appropriations $25,000 was voted for bowldering Portland avenue. The two boards will meet on Friday evening for the election of policemen and other city officers.

JEFFERSONVILLE AND INDIANAPOLIS RAILROAD. Three daily trains are now run over this road. The first train leaves Jeffersonville for Indianapolis at 6:15 A. M., the second at 3 P. M., and third, which connects with the O. and M. Railroad at Seymour, at 8 P. M. Returning, these trains arrive at Jeffersonville at 12:30, 5:30 P. M., and 1:20 A. M.

AFFRAY.—An affray occurred yesterday morning in the foundery of Messrs. Wright & Bridgeford, between two employees, named Louis Buehl and Joseph Rhodes. Buehl struck Rhodes with a heavy billet of wood upon his head, and injured him seriously. The former was arrested by Officer Seay and placed in jail.

THE PANORAMA.—Williams' great Bible Panorama continues to attract large audiences at Mozart Hall. There will be an exhibition this afternoon, at 2 o'clock, for the accommodation of pupils and families, and also this evening, as usual.

SCHOOL EXAMINATION.—The examination of Prof. Schenk's pupils, in Greek and Hebrew, will take place at 2 o'clock this afternoon, at the Male High School, in Chestnut street. The review will be conducted by Prof. Noble Butler.

INTERESTING LECTURE.—The public should not forget the very interesting lecture at St. Andrew's Church this evening, by Rev. Mr. APPLEGATE. The subject, The Holy Land, is a very interesting one, and will be ably treated.

☞ Two young females dressed themselves in masculine apparel on Monday evening last, and spent several hours in the street with their young men acquaintances in the First Ward. They were not discovered by the police.

☞ It appears from the action of the Common Council, that the proceedings of the two boards, city ordinances, proclamations, &c., will be published hereafter in but one paper.

THE STEAMER BALTIC.—Thanks to George P. Jouett, Esq., the accomplished clerk of the fine steamer Baltic, for New Orleans papers delivered last evening.

☞ The Adams Express Company has our thanks for St. Louis and Evansville papers in advance of the mails.

☞ Mr. Schad, of the Woodland Garden, gave a very pleasant dancing party to his friends on Monday evening.

Weekly Review of the Market

OFFICE OF LOUISVILLE DEMOCRAT,
MONDAY, May 4, 1857.

REMARKS—Our quotations refer only to the wholesale prices. For filling small orders a slight advance is always charged. All the specialties of the market will be found in the remarks attached to each article.

In provisions, scarcity of money continues to exercise an unfavorable effect, and causes an absence of speculative demand. An improved feeling over the previous week has been manifested in breadstuffs, and prices have advanced, though the supplies are somewhat limited. Groceries of all kinds have been in good demand, and an improved feeling has existed throughout the week. In candles, soap, and salt, an unusual activity prevailed, and transactions have been larger than the preceding two weeks. Fruit, seed, hides, hay, hemp, iron and nails, have all been in limited demand, and no sales of moment took place. Whisky is in demand, and an advance has taken place over the previous week. Notwithstanding that the money matters East have been comparatively easy, the excessive stringency here continues.

The river continues rising. Freights to Pittsburg and Wheeling at 15@25c for pound freights. To New Orleans, for pound freights 30@40c; pork ₱ bbl 70@80c, way lots at 90c; whisky $1@$1 25 ₱ bbl; tobacco ₱ hhd at $5@$6, and other articles in proportion.

Money—The money market has exhibited no new feature. No improvement in the excessive stringency previously noticed has been visible. Banks and brokers discount very sparingly, pleading scarcity of funds, and while this feeling continues no improvement can be visible.

Exchange—Remains at the following rates, which have been unchanged since last week:

	Buying.	*Selling.*
On New York	¾ prem.	1 prem.
... Boston	¾ prem.	1 prem.
... Philadelphia	¾ prem.	1 prem.
... Baltimore	¾ prem.	1 prem.

... Cincinnati	¼ dis.	par.
... St. Louis	par.	½ prem.
... Nashville	1 dis.	par.
... New Orleans	par.	½ prem.

Land Warrants—But a limited inquiry. We continue quotations of last week: 60 and 120 acre warrants, 91 to 93c; 80 and 160 acres, 96c to 98c; 40 acres, $1 to $1 05.

No change to notice in uncurrent funds.

POSITIVELY AT COST!

And No Humbug!!

OWING TO A DERANGEMENT OF my pecuniary affairs, caused by sickness and long absence from business, it has become necessary for me to adopt means to raise a sum of money by a specified time. With this view I have determined to offer my goods to customers at cost, which is far below the regular market price, and I will continue to make sales at that reduction for a few days only.

I have availed myself of the best markets in Europe and this country, in the purchase of my stock of

Watches, Jewelry, &c.,

And consequently have bought the best goods at the lowest prices, and will sell them correspondingly low. My reputation in this community for a long term for fair dealing and general integrity, I trust, will avert any suspicion as to my motives in thus offering my goods at cost.

J. HIRSCHBUHL,
de19 529 Main street, one door above Third.

"At Cost,"

"BELOW COST," "SELLING OUT," and similar clap-trap words, meet our eye at every entrance and window, face many cases, are in circulars, and in newspapers every where, and on all occasions. There being not a particle of new and salable philosophy in selling without profit, the observer may naturally ask what these phrases mean. Are merchants becoming overcome with charitable and intimate as to vie with each other in supplying the wants of the community gratuitously? In explanation three reasons can be given, viz: Dealers either intend to quit business, or to get rid of old stock, or close their receipts are so light as to make it imperative to raise them by any means. A fourth reason has been given, but has little foundation in fact, viz: Gentlemen may have made money enough. This is *possible*, but not very probable—not even in the

JEWELRY BUSINESS.

Selling "at cost," however, does not absolutely mean cheap, since much depends upon the price paid by the merchant—buying, perhaps, on long credit. He may also have paid a profit to the European or Eastern manufacturer and importer, costs of transport, interest, exchange, &c. Now

VOGT & KLINK,

Though well aware of the good old adage, "*Live and let live*," wish to remind the public, and their friends in particular, that they successfully carry on the

Jewelry Manufacturing Business,

The depreciation of Louisville manufactured articles to the contrary notwithstanding. The Jewelry we manufacture is solid, rich, and fashionable, and we are able and willing to sell it at Eastern prices for cash, which will remain in the city, instead of being expended in wages. Call, examine, and be convicted, at

The Shortest and Most Direct Route to the East from Louisville.

CENTRAL OHIO,

AND

Baltimore and Ohio Railroads.

BEING THE ONLY ROUTE BY which through tickets to

WASHINGTON CITY

can be procured, to which point, as well as to

BALTIMORE,

It is the SHORTEST, MOST DIRECT, and, in every respect, the most reliable route. It is the only route by which purchasers of through tickets to

NEW YORK

are enabled to reach the cities of

BALTIMORE,
PHILADELPHIA,
and NEW YORK,

at the cost of a ticket to New York only, thus enabling business men and travelers for pleasure or information, to visit four of the principal cities in the Union *for less cost than can be afforded by any other route.*

In addition to these great advantages, the inducements offered to travelers in the prompt and efficient management of trains on this route must not be lost sight of; added to which the grandeur of the scenery of localities, to be met with in traversing the Baltimore and Ohio Railroad, are such as are afforded by no other line of travel in the world.

THREE DAILY TRAINS.

PASSENGERS GOING EAST from Louisville, may proceed by the U. S. mail steamers to Cincinnati, and there take the railroad to connect with this line, or may leave Louisville by the Jeffersonville Railroad direct, arriving in time to connect with either the 6 A. M., 10 A. M., or 6 P. M. train of the Little Miami Railroad for Columbus, connecting there with the Central Ohio Railroad through Newark and Zanesville for Bel Air, on the Ohio, four miles from Wheeling; from this place the connection with the Baltimore and Ohio Railroad is made direct. By the Express Train of this route the time from Cincinnati to Baltimore is but 26½ hours, and to Washington but 27½ hours.

Baggage checked through from Cincinnati to Baltimore and Washington City.

Passengers should be particular and inquire for tickets via COLUMBUS and WHEELING, as no other route *can ticket* through Baltimore or Washington City to New York, their representations to the contrary notwithstanding.

☞ *Fare as low as by any other route.*

FOR THROUGH TICKETS—Apply on board the U. S. Mail steamers, which leave Louisville every day at 12 o'clock, or at the office of the Jeffersonville Railroad, by way of the Jeffersonville, Ohio and Mississippi, and Little Miami Railroads, or via *Indianapolis*, Dayton, and Xenia; and in *Cincinnati*, at the offices of the little Miami Railroad, No. 2 Burnet House, second door West of Vine street; No. 177, Gibson House, Hotel entry; and old office, Southeast corner of Broadway and Front streets, OPPOSITE the Spencer House, or at the Eastern (Little Miami) Depot, East Front street.

Passengers leaving Louisville by the 6:15 A. M. train, Jeffersonville Railroad, on *Saturday*, arrive in Baltimore and Washington City on *Monday morning* at 10 o'clock, being twenty-four hours *in advance*, and in Philadelphia and New York *fifteen hours in advance of any other route.*

To obtain the advantages of this route, purchase and ask for tickets via WHEELING, and *take none other*, as no other route can check baggage through or put passengers from Louisville on Saturday in the Eastern cities on Monday.

At Wheeling, or Benwood, four miles below Wheeling, the passenger takes the superior cars of the Baltimore and Ohio Railroad, which leaves three times daily—at 7:30, A. M., 2:30, P. M., and 10 P. M.—for Baltimore, Washington, Philadelphia, and New York, making close and sure connections to all points, East and South. For safety, speed, regularity, beauty of the country, and general comfort, this road is second to none in the Union.

FREIGHTS—With the largest equipment of any railroad in the United States, the company is prepared to do an immense business in the transportation of freights which are carried with care and dispatch, and at rates as low as those of any other first-class line. The road makes immediate connection at the wharves and in the streets of Baltimore, with the Railroad to Philadelphia and New York; steamers of Ericsson and Baltimore Steamship Company's Lines, by Canal and Sea to New York and Boston; steamers to Norfolk, Charleston, Savannah, &c.

For particulars, see freight tariff, copies of which may be had of any of the Forwarding Houses in the West.
